

United Nations Human Rights Council

Agenda: - Investigating the

existence of Chinese concentration camp for Uyghur Muslims.

Introduction: - Uyghur Muslims are Turkic speaking from central Asian region. The largest population of Uyghur Muslims live in China's north-west part Xinjiang region. The Uyghur Muslims are one of the persecuted Muslim minorities in Xinjiang including Kazakhs, Uzbeks, Tajiks, Kyrgyz and Hui. In Xinjiang the concentration camps are called as vocational education and training centers. At the concentration camp basic human rights are taken away from the Uyghur Muslims. They are tortured to death given small area to sleep and shot at site.

Body: - Algeria is a poor Muslim country in North Africa. Having traditionally strong relation with China Algeria can step into this matter and help the Uyghur Muslims have their basic human rights back. 99.1% of Algerians are Muslim. Every single Muslim majority nation in the world simply is too corrupt to care about human rights this is why Algeria has not supported the accusations of genocide, and most have explicitly shown their support for China. Also, Algeria has a strict "No interference" with foreign powers as to protect itself from foreign interventions.

As Algeria knows how it feels being controlled by someone as Algeria was in control of Vandal kingdom so they can understand the torture Uyghur Muslims are going through now and help them out by opposing China, giving Uyghur Muslims their freedom and giving them place in their country.

Conclusion: - I would like to see this world without wars, everyone living peacefully, No debates over religion, race, caste, gender, place of birth and color. This world would be a better place if everyone lives

peacefully without fighting over land. We were not able to see our desired place so let's make the next generation see the world without fights, wars, debates, discrimination. Let's give everyone basic human rights to make this world a better place.
